Aven Rabbalshede AB acquires Pall & Träkonstruktioner AB in Årjäng

We are very pleased that Pall & Träkonstruktioner AB is becoming part of Aven Rabbalshede AB. The acquisition will be completed on 21st of oktober 2026.

Aven Rabbalshede AB has a history dating back to 1962, when Einar Ung started manufacturing fish boxes in Rabbalshede. What began as a modest operation gradually expanded and soon also included pallets, fencing and other wooden packaging solutions. Aven Rabbalshede has approximately 250 customers. The largest customer segments are within the automotive industry, paper mills, the petrochemical industry and the engineering industry.

Pall & Träkonstruktioner AB started as a small joinery factory in Holmedal, outside Årjäng, during the 1960s. Over the years, much has changed, but after more than 60 years, pallets are still the company's speciality. The founder, Lennart Andersson, currently runs the company together with his three children and approximately 10 employees.

The companies have many similarities, not least when it comes to their values and approach to the business. At Aven Rabbalshede AB, we are very positive about bringing our operations together and warmly welcome the employees of Pall & Träkonstruktioner to Aven Rabbalshede AB.

Following the acquisition, Aven Rabbalshede AB will have annual sales of approximately SEK 260 million and around 90 employees, distributed across the factories in Rabbalshede, Tidaholm and Årjäng.

The acquisition means that Pall & Träkonstruktioner AB will become part of Scandinavia 's largest manufacturer of wooden packaging, Dansk Træemballage A/S, which has factories in Denmark, Sweden, Norway and Estonia, as well as a trading company in Germany. Dansk Træemballage A/S has approximately 1000 employees and annual sales of SEK 3 billion.

Kind regards,

Bjørn Skou Andersen
CEO
